

BE NOT AFRAID

When you walk through the night, don't let the darkness steal your light
Carry on to your journey and let the sound of the drum lead you home

And be not afraid for I am with you,
be not afraid for I am strong
Be not afraid from I am always by your side
Be not afraid I'll always love you,
be not afraid I will protect you
Be not afraid I will always be your guide
And we will rise, we will rise to the standard of the light
And we will rise, we will rise to the standard of the light

Because you are holy, you are sacred, you are worthy, you loved
Remember you're holy, remember you're sacred, remember you're worthy, remember you're loved
You'll always be holy, you'll always be sacred, you'll always be worthy, you'll always be loved

When you walk through the night, don't let the darkness steal your light
Carry on to your journey and let the sound of the drum lead you home

So be not afraid for I am with you,
And be not afraid I'll make you strong
Be not afraid and have the strength to carry on
For you are the light within my eyes
You are the song within my heart
You are a feather on the breath of exaltation
You are divine, and you come from the kingdom of the light
You are divine, and you come from the kingdom of the light

Because you are holy, you are sacred, you are worthy, you loved
Remember you're holy, remember you're sacred, remember you're worthy, remember you're loved
You'll always be holy, you'll always be sacred, you'll always be worthy, you'll always be loved

Because you are holy, you are sacred, you are worthy, you loved
Remember you're holy, remember you're sacred, remember you're worthy, remember you're loved
You'll always be holy, you'll always be sacred, you'll always be worthy, you'll always be loved
